From data to models

A multi-scale view on living systems

March 22nd, 2016 — Lyon

One-day workshop organised by the Research Federations in Life Sciences & Health from Lyon – St Etienne (VISALYS) and BioSyL

Objectives of the day: exchanges and brain storming, identification of new collaborative axes and project proposals

Grand Amphithéâtre
Université de Lyon
90, rue Pasteur
69007 Lyon

Program

Morning

Plenary lectures by our invited speakers:

Marija Cvijovic, Chalmers, Sweden

Alfonso Bueno-Orovio, Oxford, UK

Jérome Bonnet, Montpellier, France

Tariq Enver, London, UK

Afternoon

Round tables chaired by local and international scientists on the following themes:

'Training the next generation of systems biologists'

'What is multi-scale?'

'Systems Biology vs Synthetic Biology'

'Network analysis in biology '

Free registration, open to all!
Free lunch
